INDIGENT SOLDIERS' ACCOUNT.

As the law of 1885 has been repealed by the legislature, we would call the attention of selectmen and overseers to the law passed relating to this account:

AN ACT in relation to aid furnished indigent soldiers, and providing for entrance to the soldiers' home, in certain cases.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. Chapter 41 of the session laws of 1885, entitled "An act for the relief of poor persons who have served in the army or navy of the United States, and their dependent families, and chapter 45 of the session laws of 1887, in amendment of said act, are hereby repealed.

SEC. 2. Whenever any person resident in this state, who enlisted in the quota of this state, and was reckoned and served as a soldier or sailor from New Hampshire in the army or navy of the United States in the war of the rebellion and who received an honorable discharge, not being under guardianship or legal restraint, shall become poor and unable to provide maintenance for himself and dependent family, such person, his wife, widow, or minor children, or such of said children as are unable to maintain themselves, shall be supported at the public expense in the town or city of their abode, at their own home or such place other than a town or county almshouse, as the overseers of the poor or the county commissioners shall deem right and proper,—*provided*, that no person shall receive aid under the provisions of this act unless he has resided in this state three years or more before making application for such

aid; and *provided*, that any person applying for such aid, shall, when requested, furnish to the county commissioners or the overseers of the poor the certificate of a reputable physician, resident in the county in which he lives, that he is incapacitated to perform manual labor; and *provided*, that no person shall, while receiving aid under the provisions of this act, use intoxicating liquors to an extent which will render him incapable of working at his usual occupation; and *provided*, that any person receiving aid under the provisions of this act, who receives a pension from the United States government, shall, while receiving such aid, apply such pension to the support of himself and dependent family, and shall, when requested, furnish to the overseers of the poor or the county commissioners, satisfactory proof that such pension has been so applied; and *provided*, that no person receiving aid under the provisions of this act shall sell any article furnished him, nor exchange them for intoxicating liquors, nor share any such aid with any persons other than those above named as being entitled to the benefit of this act. Neglect by any person applying for or receiving aid under the provisions of this act to comply with the foregoing provisions and conditions, shall relieve the town or county liable for such person's support from the provisions of this act so far as such person is concerned, and such person may be supported at the town or county almshouse.

SEC. 3. The county commissioners or the overseers of the poor of any town may require any person applying for aid under the provisions of this act, who is eligible for admission, to make application for admission to the New Hampshire Soldiers' Home, in case he has no family or settled place of abode, whenever, in their discretion, they deem it best; and if such person refuses to make such applicaion, or, if admitted, refuses to go to said Soldiers' home, the county or the town shall be relieved from the provisions of this act so far as such person is concerned, and he may be supported at the county or town alms-house.

SEC. 4. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed, and this act shall take effect upon its passage.

Approved, April 7, 1891.

Mr. and Mrs. Tasker have continued their labors, and we feel confident that for industry, kindness, and interest for the inmates, they are hard to excel.

The buildings at the farm are in the very best condition, and nearly all were painted during the past year, which tends to add some to the cost per week for running the institution.

When one stops to consider the number of inmates we are obliged to admit that the death rate is very low, which is due to good nursing, constant care and attention to cleanliness, and the sanitary condition of the different departments.

The citizens of the county are respectfully solicited to visit the county almshouse and farm, and personally inspect the condition and management of the institution.

DAVID D. TAYLOR,

A. J. THURSTON,

FRANK E. CRAM,

County Commissioners.

JAMES F. FELLOWS,
Jailor.

PHYSICIAN'S REPORT.

To the Honorable Commissioners of Merrimack County:

GENTLEMEN: I herewith present to you my report, as jail physician, for the year ending December 31, 1894.

Although the number of prisoners during the past twelve months has been greater than the preceding year, the amount of sickness has been less.

There has been no epidemic.

The cases requiring medical attendance have been of the usual order—minor ailments; several severe cases have, however, demanded our attention, but in these instances, the disease was well established at the time of their committal to the jail.

The past record of this institution for cleanliness has been maintained; at all times, the cells and corridors are prepared for inspection. I have received no complaints from the prisoners.

D. E. SULLIVAN.

Indictments and informations,	148
-------------------------------	-----

Of the persons indicted seven were convicted and committed to jail and eleven were sentenced and committed to prison. Nearly all the other cases were satisfactorily disposed of.

I am not aware that any civil or criminal action is now pending against the county ; neither has there been during the year.

An experience of nearly four years as the prosecuting officer of the county, has demonstrated that the prevailing practice of local officers in instituting on their own responsibility and judgment the preliminary proceedings in matters certain to require the action of the grand jury, should be radically modified in the interest of economy, humanity and justice.

The credit of the county and its resources are almost unlimited, and the treasury is invariably ready to meet all demands made upon it, nevertheless, any form or warrant of law under which men can be arrested for real, technical, or imaginary violations of the statute and committed by police courts or magistrates in default of bail, to be herded together like cattle in jail for days, weeks and months,—at the expense of the county,—many of them to be discharged on being indicted by

the grand jury, "because they have been punished enough," is faulty, and needs careful revision—even unconditional repeal.

As the county is required to pay all the fees incurred—except in rare instances—the solicitor or attorney-general should be consulted before any expense is made, and no bills not authorized by either of them should be allowed save when necessarily made in the rare case of an extraordinary emergency. This course would, I am satisfied, save the tax-payers of the county many dollars annually, and would not, in any way, interfere with the speedy prosecution and punishment of those guilty of crime.

Respectfully submitted,

DANIEL B. DONOVAN,
County Solicitor.

PHYSICIAN'S REPORT.

To the Commissioners of Merrimack County:

GENTLEMEN:—The conditions at the Almshouse and House of Correction have not materially changed since my last report, one year ago. There has been no serious epidemic and no unusual amount of sickness among the inmates. I would again call to the attention of the Commissioners the recommendation, made at that time, in regard to a separate building for patients suffering from contagious diseases. Under present conditions, if an inmate is taken sick with an infectious or contagious disease, he must remain in a building occupied by a large number of persons during the entire course of the disease and subsequent convalescence, every one of whom is to a greater or less extent endangered by the case. And this condition must prevail in very many of the most contagious diseases; not for days only, but for a period varying, according to the disease, from two to eight weeks. Thus, even with the greatest care and the exercise of the most stringent measures, it is oftentimes impossible to prevent the occurrence of other cases. Whereas, if a building apart from the other structures was provided for this class of cases, a person becoming sick with such a disease would be at once removed to such building and the room from whence he came could be immediately disinfected, thus removing the danger of infection at once from the other inmates and limiting the number of people exposed to the disease to those who were actually needed for the care of the patient. I earnestly recommend this matter to your favorable consideration. The Vital Statistics of the Institution for the past year, will be found on the following pages.
